Shielded Workstations

Multiple configurations of workstations with tabletop shielding for various types of work, such as cyclotron maintenance, dose preparation and calibration, and more. Our workstations are finished with stainless steel or epoxy coated steel for easy cleaning and decontamination. We have added lead glass viewing windows for visibility and to provide protection to the head and neck of personnel.

Product code	Description	Lead thickness		Outside Dimensions (w x d x h)
SW145	Tabletop L-block workstation	5.0	mm	600 x 420 x 420 mm
