SWB113, SWB116, SWB125 & SWB250

SHIELDED SHARPS BINS

Our Shielded Sharps Bins provide secure and reliable radiation protection for the disposal of radioactive sharps, ensuring a safe work environment in laboratories, hospitals, and research facilities. Available in 3mm, 6mm, 12,5mm and 25mm lead shielding, these bins offer varying levels of protection to suit different safety requirements. For added convenience, we also offer an optional plastic sharps bin insert that fits perfectly into our shielded sharps bins, allowing for easy replacement and enhanced hygiene during disposal.

PRODUCT CODE	LEAD THICKNESS	INSIDE DIMENSIONS	WEIGHT	FINISHING MATERIAL
SWB113	3mm	221x186x268mm	23KG	Stainless steel outside Painted lead inside
SWB116	6mm	215x180x265mm	32KG
